INTRODUCING REJUVA SEAL®

RejuvaSeal® is the world's leading asphalt rejuvenator. Containing no water, it is a proprietary product made from coal tar, aromatic oils and specialty solvents. The solvents and oils enable RejuvaSeal® to penetrate the surface of asphalt, restoring the binder's composition, and unlike conventional seal coats, it makes the asphalt more flexible and less prone to cracking. RejuvaSeal® has been tested for performance claims more than any other rejuvenator on the market. This includes the Army Corps of Engineers, the U.S. Department of Defense, the Canadian Army Forces, and various state DOT agencies. RejuvaSeal® has restored over 5,000,000 square yards of asphalt throughout the United States, and is the leading rejuvenator used on airfields around the world. It's real science, and it works!

A REJUVASEAL® DISTRIBUTORSHIP... WHAT IT MEANS FOR YOUR BUSINESS

ONE WORD – “PROFITS”

RejuvaSeal® applications are all about productivity. Imagine completing a larger job in less time with less labor. How? Using equipment with application rates up to 9,000 square yards per hour without having to mix formulas, positions your company for larger contracts by enabling you to service larger properties and facilities. Managers and owners will appreciate the fact that RejuvaSeal® provides superior benefits while remaining the lowest cost solution for asphalt maintenance backed by a three-year warranty. It's proven to provide a high return on maintenance dollars.

RejuvaSeal® (asphalt rejuvenation) is a growth and profit strategy for your company.

Adding RejuvaSeal® to your product line is a game changer—it will give your company a distinct advantage over all your competitors using conventional water-based sealers.

IMPROVE YOUR PRODUCTIVITY, EFFICIENCY, AND CORRESPONDING PROFIT MARGINS

Depending on the property, a single coat of RejuvaSeal® when applied with a high production Desco applicator will treat 25,000 to 35,000 square yards per day. Compare this to less productive methods of applying water-based seal coats with spray wands. One single coat of RejuvaSeal® is all you need to get the job done – saving you time and money. You'll be amazed at how much product you can apply and invoice for in a single day. Maintaining asphalt with RejuvaSeal® provides your customers with better value for their money, while translating into more profits for your company.

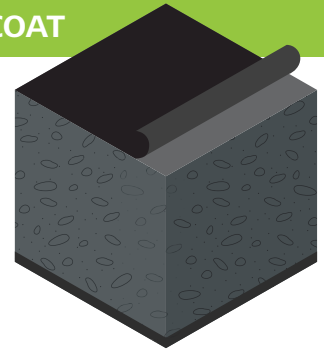

ASPHALT SEALERS VS. ASPHALT REJUVENATORS

Traditional seal coats merely coat the surface and do nothing to repair or protect the asphalt below the surface. Two coats are usually needed for the best results. This is time consuming and costly because it slows down production while you are waiting between dry times. Additional time is required before starting jobs due to mixing the materials needed, including water.

A single coat of an asphalt rejuvenator will penetrate the pavement and rejuvenate the asphalt binder well below the surface. It seals and protects the pavement against water, sunlight and chemical contaminants, extending the life cycle and curb appeal of your customer's asphalt assets.

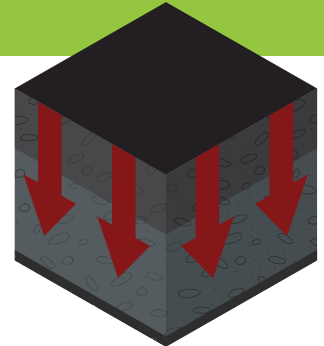

TRADITIONAL SEALCOAT

Simply coats the surface and wears away. It is subject to cracking and delamination.

REJUVASEAL®

Penetrates and seals the asphalt pavement, while restoring flexibility. It will not delaminate.

AN INDUSTRY FIRST...

REJUVA SEAL® U.S.A.

DISTRIBUTOR NETWORK

The RejuvaSeal® USA Distributor Network was created to provide RejuvaSeal® distributors throughout the United States with the most comprehensive information on marketing, training and technical support. It is the central source for marketing resources, leads generation and contract facilitation. In addition, the Network will profile distributors and provide logistical coordination.

The RejuvaSeal® USA Distributor Network provides a variety of valuable marketing tools and individual support for closing larger contracts. Our specific marketing and selling tools are designed to help you demonstrate RejuvaSeal®'s benefits, enabling your company's profits to grow faster. No other industry network is dedicated to making distributors more profitable than ours. RejuvaSeal® USA Distributor Network is the standard for all others to follow.

ADVANTAGE OF BEING PART OF THE REJUVASEAL® USA DISTRIBUTOR NETWORK

Better Marketing:

With advertisements, brochures, web content, e-mail campaigns all customized to your business and focused on and targeted to the best potential new customers in your territory.

Equipment/Inventory Financing:

We assist your product line expansion by coordinating central financing arrangements with a national lender eager to service the business of RejuvaSeal.

More Sales:

Our goal is to expand your market, explore new profit opportunities, and generate new leads. We help you facilitate contracts and close more deals.

Differentiate Yourself:

RejuvaSeal® is a specialty product unavailable to your competition, so you find yourself competing more effectively when you can offer what they cannot!

Technical Support:

Via e-mail, phone or in person, you receive training and support in equipment operation, product application, safety procedures and the product line.

Improve Your Bottom Line:

With higher margins from single coats, repeat business due to improved performance, new business due to increased marketing and available financing, an improved bottom line is inevitable.

Leverage Existing Assets:

We offer creative, cost effective ways to help you make extra income with the equipment and warehouse space you own but don't use.

WHO IS APT?

Asphalt Pavement Technologies (APT) is the master Distributor for Rejuvaseal®, the leading asphalt rejuvenator in North America. In addition to being an application contractor in Pittsburgh, PA where the company is headquartered, APT is developing distributors/applicators in specific markets throughout the United States. The company is seeking to develop distributors/applicators that are interested in offering a superior asphalt-rejuvenating product to their existing and new customers.

APT is developing the resources necessary to enable distributors/applicators to migrate quickly into the business of rejuvenating asphalt. If you are interested in learning more about this exclusive high-margin business opportunity, visit our website at rejuvasealusa.com.

Asphalt Pavement Technologies is a licensed distributor and applicator for Pavement Rejuvenation International, LP, the manufacturer of RejuvaSeal®.
